Maxwell is a transactional attorney with over a decade of experience. He is a creative problem solver who implements an interdisciplinary approach to help clients achieve their goals. Maxwell's practice is concentrated primarily in four areas – entertainment and media law; corporate and business law; mergers and acquisitions; and commercial real estate.

Within his entertainment and media law practice, Maxwell counsels and assists marketing and branding agencies, freelancers, new media and social media influencers, production companies, fashion designers, artists, entertainers, technology companies, the hospitality industry, and other creative-industry professionals with all aspects of their art form and their business – from advising on general business and intellectual property matters, to assisting with any of the business and transactional needs mentioned below.

He often represents privately held businesses in mergers, acquisitions, divestitures, and other major transactions. In addition, he has a broad corporate and business practice where he provides legal and business counselling for clients who want to start, manage, transfer, or exit a business or who may need LLCs, corporations, partnerships and related contracts and agreements to help them do so. This frequently includes contract drafting and interpretation; corporate governance, regulation, and compliance; review, negotiation, and documentation of financing arrangements; drafting opinion letters; and various nonprofit organization matters. Maxwell also has experience in commercial real estate transactions where he represents clients with real estate acquisitions, sales, leasing, and licensing.

Maxwell was voted for inclusion in the inaugural 2021 edition of The Best Lawyers in America: Ones to Watch, and again for the 2022, 2023 and 2024 editions. An honor based on rigorous peer review and achieved by less than 1% of all practicing attorneys nationwide.

He serves as one of the firm's Meritas lawyer contacts and is a member of the firm's Diversity Committee and Technology Committee. Maxwell routinely speaks and writes on matters related to his practice areas.

In addition to his own practice areas, through his colleagues, he can offer to his clients the full array of services provided by the firm.
